About Us

Dempem Engineering Services Ltd (**DES**) is an engineering firm operating in Kenya, offering cutting edge innovative engineering solutions, products and services. It was established in 2006 as a Business name and incorporated as a limited Company in 2011.

DES is registered as an Electrical Contractor in the highest category “Class A1” by the Energy Regulatory Commission, ERC, and is licensed to carry out all kinds of Electrical Installation Works.

DES is registered by Kenya Power & Lighting Company Ltd, KPLC as an Electrical Contractor Class A1 and is authorized to carry out Electrical Installations, test them, and issue Test and Completion Certificates for connection to all Voltage Levels.

DES is also registered as a Contractor in Electrical Engineering works by the National Construction Authority, NCA.

DES undertakes Design, Supply, Installation, Commissioning, and Maintenance of Equipment, Machinery, & Building Electrical Services.

DES offers practical industrial and administrative experience essential in meeting our customers’ needs and demands.

Our staff

Our staff, who are our greatest resource, consist of a highly experienced technical team that is always open to challenging ideas. We strive to provide occupational health, safety and ensure safe working conditions by consistently auditing our internal processes and making continuous improvement.

Mission

To provide high quality engineering solutions, products, and services to meet and exceed our customers’ expectations.

Vision

To be the preferred provider of innovative engineering solutions, products, and services.

Core values

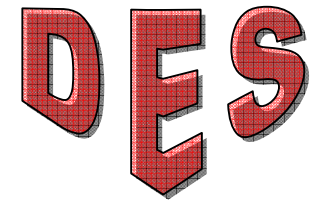

- Customer care and service beyond expectations
- Employees, customers, and public safety
- Promoting integrity and professional ethics
- Promoting team spirit and openness within all levels of the company
- Demonstrating our social and environmental responsibilities

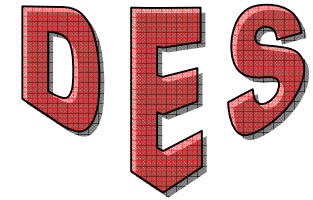

Our Services

We treat all Electrical Installations professionally. These include residential, commercial, industrial, and High Voltage Equipments Installations & Commissioning. We also undertake maintenance of Electrical Equipment operated at ALL voltages.

Among the jobs undertaken include:

- High Voltage Equipment installation and commissioning for connection to any voltage (110V, 240V, 415V, 3.3KV, 6.6KV, 11KV, 33KV, 66KV, 132KV, 220KV, & 400KV)
- Transformer & Switchgear maintenance
- Protection schemes for generators, transformers, motors, and transmission & distribution lines
- Motor control centres & Power factor correction equipment
- Programmable logic controllers
- Project Management
- Building Electrical Services Engineering for connection to Single-phase & Three-phase supplies

Managing Director

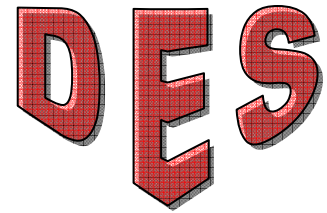

Eng. Daniel Myatu, P.Eng., MIEK, MIEEE, MIET

Daniel holds a BSc. Electrical Engineering (HONS) from University of Nairobi. He is a Professional Engineer registered by the Engineers Board of Kenya, EBK, and is a Corporate Member of the Institution of Engineers of Kenya, IEK. He is a Member of the Institute of Electrical and Electronics Engineers, IEEE (USA), and a Member of the Institution of Engineering and Technology, IET (UK). He is a Class A1 Licensed Electrician with Energy Regulatory Commission, ERC.

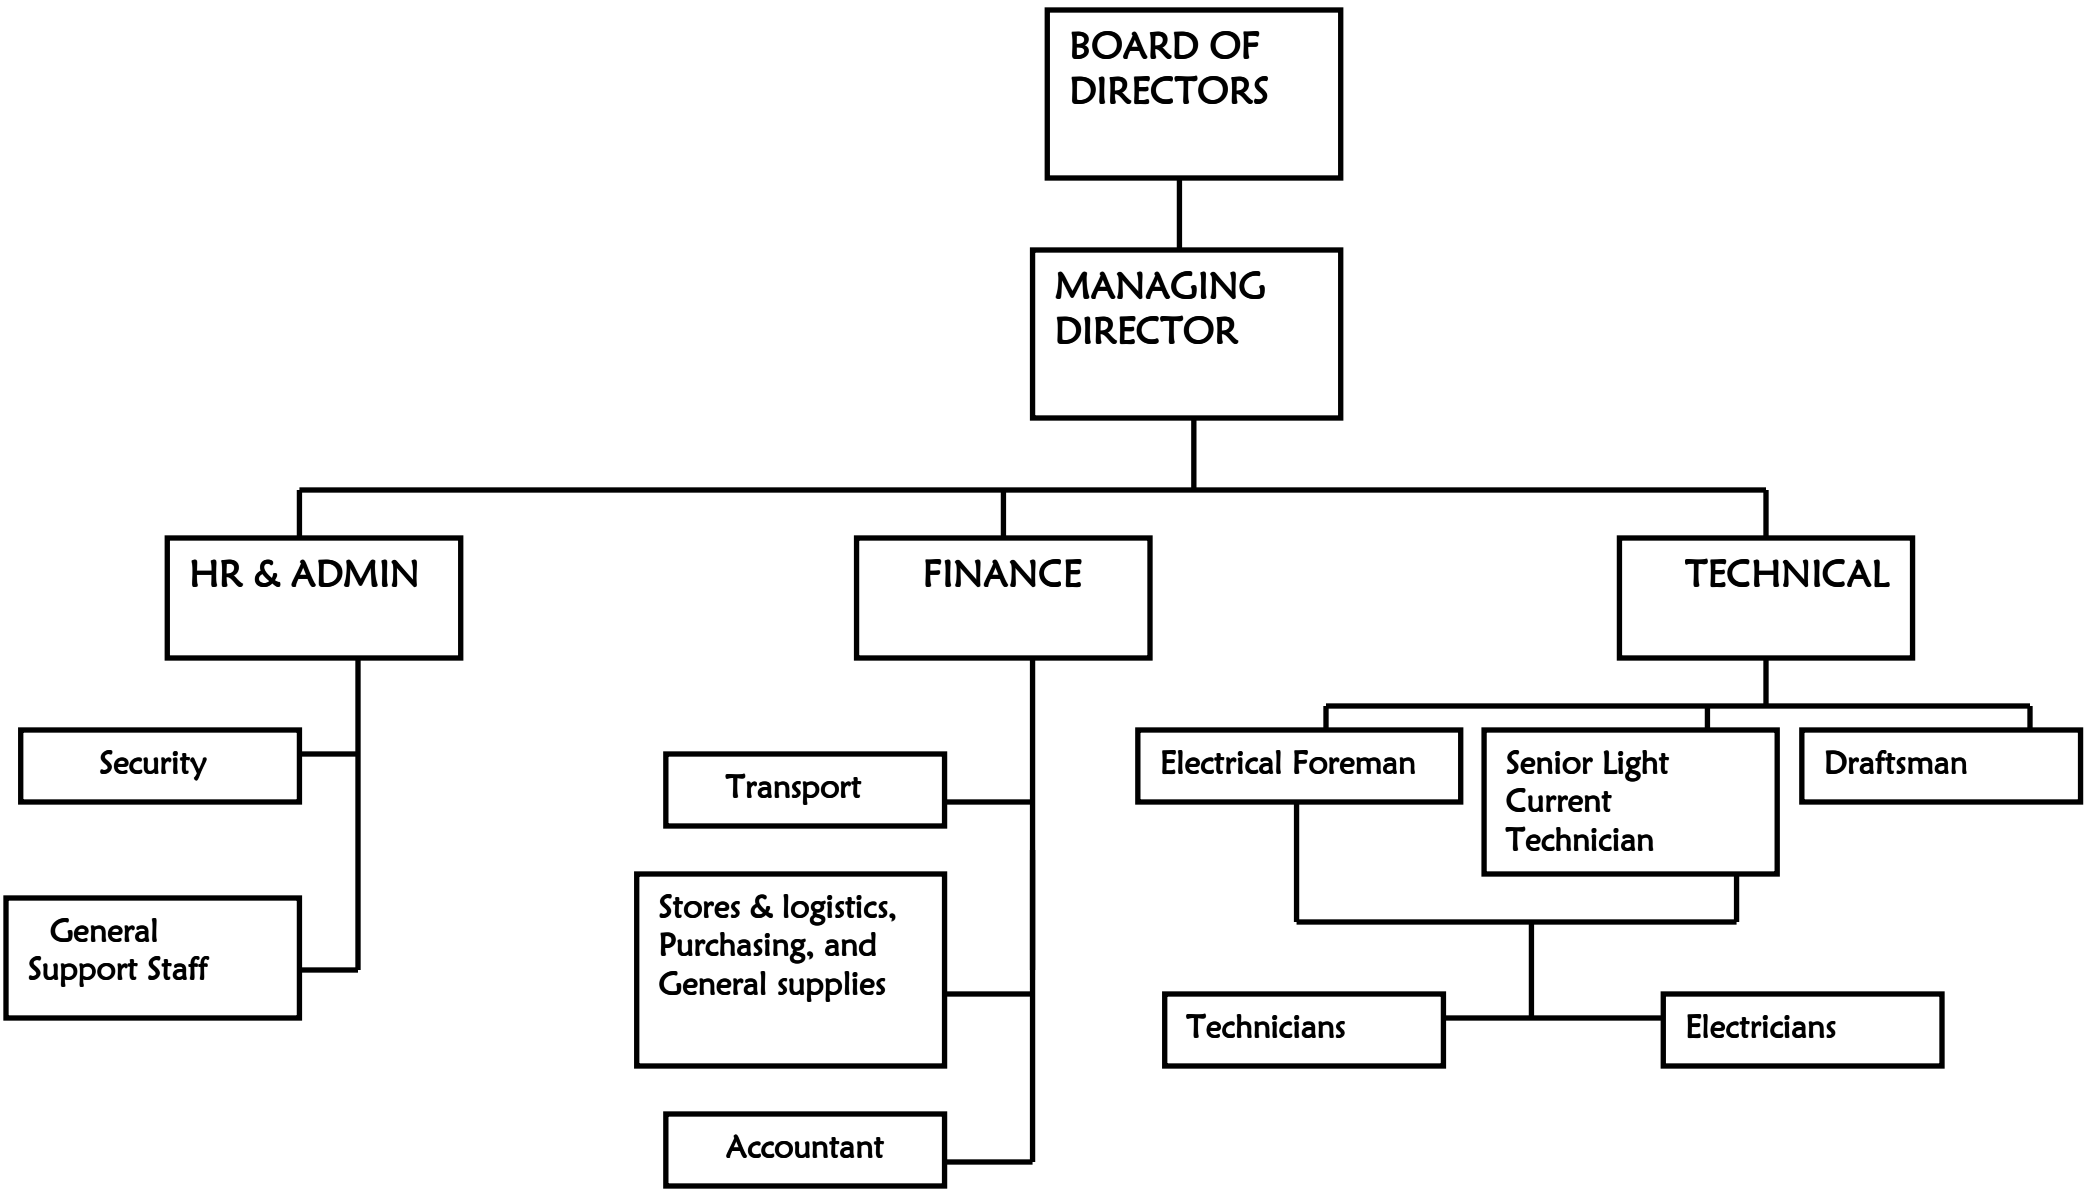

Daniel has over 27 years of Engineering Experience gained through working in various industries, both National and International:

- Power Generation, Transmission, & Distribution
- Building & Construction
- Manufacturing
- Mining
- Port Operations

He has led teams of engineers of various disciplines to achieve targets both in Maintenance and Projects.
